Job Functions

(You may be responsible
for more than one)

- Oversee scientific operations and the administrative and budgetary affairs of a highly specialized research service group.
- Manage therapeutic or project teams to align activity to meet the organizational objectives of the business.
- Communicate and present findings and outcomes of research to enable go/no go decisions on projects.

Actual job titles may vary slightly between organizations. The BioCareer Pathways are meant as a guide for potential career paths. They have been developed through secondary research.
