Research Associate/Post-doctoral Fellow

2-5 Years

Research Scientist

5-7 Years

Principal Investigator/Group Leader

7 Years+

Senior Investigator/Chief Scientific Officer (CSO)

Career Change

Medicine, Research,

Job Functions

(You may be responsible for more than one)

- Design and conduct experiments; process data and analyze results.
- Communicate results to peers; present research at conferences; teach graduate students; develop new research proposals for funding.
- Understand the development pipeline and work collaboratively with other to commercialize an innovative product or process {eg. IP, clinical, regulatory and marketing experts}.

Actual job titles may vary slightly between organizations. The BioCareer Pathways are meant as a guide for potential career paths. They have been developed through secondary research.
